CAREER OBJECTIVE

Passionate about building scalable, end-to-end web applications - from crafting responsive UIs to designing RESTful APIs and robust database architectures. Seeking a Full Stack Developer role where I can contribute across the entire product lifecycle, collaborate with dynamic teams, and continuously grow as a professional.

SKILLS

Frontend	:	HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), TypeScript, React.js, Next.js
Backend	:	Node.js, Express.js, REST API Design, MongoDB (Mongoose), MySQL, Firebase (Auth, Firestore, Storage)
Auth & Security	:	JWT, HTTP-only Cookies, Role-Based Access Control (RBAC)
Payment Gateways	:	Stripe, SSLCommerz
Tools	:	Git, GitHub, VS Code, Figma, Vercel, Surge, Postman
Additional Languages	:	C, C++, Java, Python, PHP
Soft Skills	:	Teamwork, Leadership & Communication, Creative Problem-Solving, Web Development Club

PROJECTS

Tabletalk – Restaurant Management System

Live Link | Client Repo | Server Repo
Tech Stack : React.js, Node.js, Express.js, MongoDB, JWT, Stripe.

A full-stack restaurant management platform featuring secure authentication, role-based dashboards, and integrated payment processing.

- Designed and implemented secure JWT authentication with role-based dashboards (Admin/User), protecting REST APIs using HTTP-only cookies and reducing unauthorized access risk.
- Implemented JWT authentication with role-based dashboards (Admin/User) and protected REST APIs using HTTP-only cookies.
- Built menu, cart, and order workflows with server-side filtering, pagination, and query optimization.
- Integrated Stripe payment gateway with backend verification for secure transaction handling.

ZenTask - Task Management Platform

Live Link | Client Repo | Server Repo
Tech Stack: React.js (Vite), Node.js, Express.js, MongoDB, Firebase, Stripe, Tailwind CSS

A full-stack task management platform enabling secure authentication, task workflow automation, and responsive UI performance.

- Implemented Firebase authentication with protected routes and role-based (Worker, Buyer, Admin) access control.
- Built full CRUD task workflows with RESTful APIs, Axios integration, and MongoDB schema modeling.
- Integrated Stripe payments and optimized UI using Tailwind CSS, DaisyUI, and Framer Motion animations.

TripCraft – Tour & Travel Management System

Live Link | Client Repo | Server Repo
Tech Stack: React.js, Node.js, Express.js, MongoDB, Firebase, Tailwind CSS, SSLCommerz.

A full-stack travel management platform enabling users to explore tour packages, make secure bookings, and manage travel activities with role-based dashboards.

- Implemented Firebase authentication with protected routes and role-based access (Admin/User) to ensure secure booking and dashboard control.
- Built end-to-end booking system with package management, booking status tracking, and MongoDB-based data modeling.
- Integrated SSLCommerz payment gateway and developed responsive UI using Tailwind CSS and modern React ecosystem tools.

EDUCATION

Bachelor of Science in Computer Science and Engineering
Varendra University
Passing Year : 2025
CGPA : 3.63/4.00

Higher Secondary Certificate (HSC)
Jonail Degree College
Passing Year : 2020
GPA : 5.00/5.00

Secondary School Certificate (SSC)
Saint Louis High School
Passing Year : 2018
GPA : 5.00/5.00

LANGUAGES

English: Professional Proficiency **Bengali:** Native **Hindi:** Conversational
